Career Objective

To secure internship or project opportunities that allow me to apply programming and problem-solving skills while continuing to learn and grow in the field of computer science.

Professional Summary

Motivated and detail-oriented Computer Science undergraduate currently in the second semester of a Bachelor's degree program. Possesses a strong foundation in programming (Python, C/C++), data structures, and algorithmic thinking. Eager to apply theoretical knowledge to real-world problems through internships, academic projects, or collaborative learning opportunities. Demonstrates a keen interest in emerging technologies such as artificial intelligence, cybersecurity, and software development. Committed to continuous learning and building a career in the tech industry through hands-on experience and innovation.

Technical Skills

- MS Office (Excel, Word, PowerPoint)
- Programming: Python, C, C++
- Web Development: HTML, CSS (basic)
- Version Control: Git, GitHub
- Tools: VS Code, Jupyter Notebook
- Basics of Data Structures and Algorithms

Academic Projects

Portfolio Website 2025

- Built a personal website using HTML and CSS to showcase skills and projects.
- Deployed using GitHub Pages.

Python Number Guessing Game 2025

- Developed an interactive terminal-based game to strengthen control structures and logic.

Basic Calculator in Python 2025

- Designed a simple calculator handling basic arithmetic operations using Python.

Certifications

- Python Basics – Udemy
- Git & GitHub – Coursera
- Introduction to Cybersecurity – Cisco Networking Academy (Ongoing)
- CS50x: Introduction to Computer Science – Harvard (edX) (Ongoing)

Education

Higher Secondary School, Rustomjie International 2023 – 2024
Percentage: 78%

Secondary Education, Rustomjie International 2021 – 2022
CGPA: 8.8/10

Academic Achievements, Coursework & Extracurriculars

- Relevant coursework:
 - Data Structures and Algorithms (Ongoing)
 - Programming Fundamentals
 - Basics of Web Development
 - Problem Solving with Python
- Active member of the University Coding Club; participated in coding contests and peer learning sessions.
- Participated in university-level hackathons focused on teamwork and problem-solving.
- Volunteered with NGOs to support elderly and underprivileged communities.
- District-level Badminton player, demonstrating discipline, commitment, and teamwork.

Interests

- Software Development
- Artificial Intelligence
- Cybersecurity Basics
- Problem Solving and Logic Puzzles
